

WAGNER THERMO QUIET™

Friction material is post-cured to facilitate the break-in period

100% asbestos-free, technologically advanced friction material

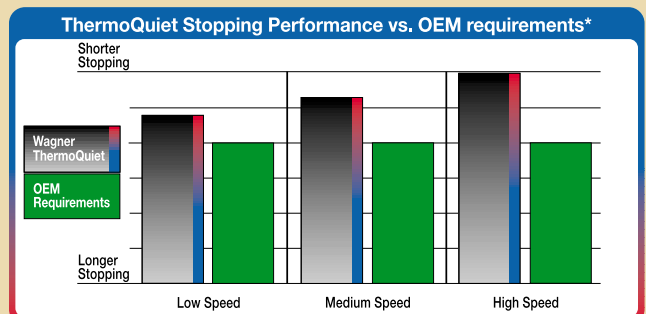

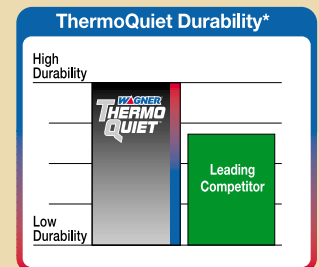

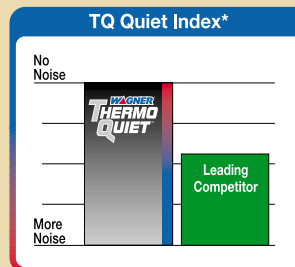

Superior friction formulations engineered to pass O.E. manufacturer-developed stopping test

IMI™ Sound Insulator™ one-piece design spreads out and absorbs heat and energy over a greater surface area for longer brake pad life and quiet performance

The Next Generation in Brake Pads

- Platform-specific friction formulations for light trucks, SUVs, mini-vans and cars
- IMI™ Sound Insulator™ technology is combined with OE-matched chamfers, slots and wear sensors to offer premium braking performance in every application
- One-piece design eliminates separate shims, absorbs and dissipates vibration and heat and extends the service life of brake components
- 100% asbestos-free friction formulations in choice of semi-metallic or non-metallic to suit vehicle use
- Electrostatic powder coat finish for premium, corrosion-resistant appearance and longer life

* Test results shown conducted on 2000 F150 Ford Pickup. Results may vary by vehicle and driving conditions.
